

Designer Althea Harper climbing fashion pyramid

By Lance Winkler

Oakwood designer Althea Harper has been competing with other fashion designers on the popular show Project Runway for the past 12 weeks. Each week another hapless designer fall by the wayside and the pressure to stay on the good side of the judges with fashion-forward designs and taking the occasional chance is truly strutting the razor's edge on this show.

Last Thursday, there were five designers and at the end of the show two were out. Happily, Harper was one of the surviving trio that will be going to Bryant Park in New York City for Fashion Week. She will be exhibiting a dozen of her designs on the runway there. But there is more...

The winning designer will receive a fashion spread in Marie Claire magazine, a vacation to Paris, France and \$100,000 to start their own label.

Harper had a runway show back in September that was attended by fellow OHS classmate Ryan Olavarria and an entourage of Oakwood fashionistas and family. Whether she comes away with the top prize or not, the story will play out in the next two weeks when the show runs on Thursday nights, Nov. 12 and 19 on the Lifetime Channel.

The Althea Harper fashion show "Assimilation" at the exclusive and very popular Greenhouse NYC in September was a great success. Pictured (left to right): Fiona Conte, Althea Harper, Ryan Olavarria, and Chris Harper.

Heaton appearing in newly-released film *The Box*

Oakwood High School (2005) alumna Danielle Heaton is appearing in the newly-released film "The Box," starring Cameron Diaz, James Marsden and Frank Langella and directed by Richard Kelly.

Danielle is a 2009 graduate of Emerson College, Boston, Massachusetts, with a Bachelor of Fine arts in Musical Theatre. While at OHS, Danielle was actively involved with local theatre productions including: Dayton Playhouse, Human Race Theatre, Vandalia Youth Theatre, Oakwood High School productions and five years with the Muse Machine.

She was cast in many shows at Emerson and has worked the past three summers in Summer Stock Musical Theatre with leading roles in the Nantucket, MA Dreamland Theater and Broadway on the Gulf at Galveston Island, Texas. Danielle has

recently moved to Manhattan, NY to pursue her career in music and acting. Danielle said that her small role as Estelle in the movie "The Box" was a wonderful experience and getting to attend the movie's premiere and cast party really added to the excitement of her move to New York City.

Off-duty officer charged in assault at pharmacy

An Oakwood safety officer has been placed on administrative leave after an incident last week where he assaulted a man twice at a Rite Aid drugstore on Wilmington Pike. According to a security camera video inside the store, off-duty Officer John McCalister is seen striking Paul Watts, 48, twice inside the store after Watts asked McCalister for change about 3:30 p.m. Oct. 14 at the Rite Aid store at 1158 Wilmington Ave. The officer pushed Watts to the ground twice during the confrontation before being seen walking back out of the store.

The officer's wife, Oakwood Officer Tiffany McCalister, who was present but not

involved in the incident, was also put on administrative leave pending an internal investigation on the matter that should be completed within the next 30 days. McCalister is scheduled to be arraigned in Dayton court on Nov. 13.

"We are extremely concerned about our officer," said Oakwood City Manager Norbert Klopsch. "The 'use of force' rules are very strict, especially for a police officer. I don't know why or how this happened."

A video of the confrontation is downloadable on the Internet at: <http://link.brightcove.com/services/player/bcpid1418565565?bctid=48550036001>

munity spirit, leadership, volunteerism and making a difference in the lives of others.

To nominate a Woman of Influence, go to the YWCA Dayton website: www.ywcadayton.org and complete the online nomination form. Deadline to submit a nomination is Friday, Dec. 4, 2009. Taking the dog's side

We hope the owner of the attack dog that "charged" Mr. Bittner at Houk Stream comes forward. I want her version. Was her dog charging to the attack, or was it running to greet, or was it going to just run past him? We recognize how Mr. Bittner feels, and if it happened exactly as he describes, there is cause for concern. But what person has experienced in an open wooded situation, a dog running toward him or her with the intent to attack and bite? He was certainly diligent in researching the O.R.C. regarding loose, vicious dogs. We have encountered numerous loose dogs at Houk Stream, and our experience is that the ones on the leashes are the ones you have to watch. That is when they get territorial. I know this is just our experience, but we love to see running dogs at Houk, chasing and never catching deer, diving into the stream, wearing themselves out. We have never been threatened by any loose dog, and our dogs are there daily, sometimes loose. On one occasion, our dogs chased a deer

until exhausted, we leashed them up and began walking away. To our amazement, the deer followed us as if to say, "wait, I'm not done playing" and stood there for more than ten minutes, just a meter away, waiting for the chase again.

The laws are there for sure, and Mr. Bittner is within his rights. How about a couple of hours window where the dog owners/lovers can have their fun? Mr. Bittner calls to task the Oakwood Safety Department for not charging the owner of the dog with an offense. It is within the parameters of the officer's interpretation of the events whether to decide on a summons or citation, and obviously the two officers after speaking with the victim and the owner of the dog, decided not to issue. Of course there will be two sides of this debate and will go on ad infinitum. We may be on the wrong side of the law, but we're taking the dog's side.

On-point with opinion

In one of my letters I stated "Liberals resort to destroying the messenger instead of debating the issue." I haven't changed my mind. Read the rebuttals.

Analyzing the five letters that responded to my three letters, each spent time trying to cast doubt on my logic and facts rather than debating my original premise that the Obama administration is spending this country into bankruptcy. This was not mentioned and one letter was extremely sarcastic.

When I was debating in college we were taught to "get to the point." A lot of excessive verbalization usually lost the debate. I estimate that, on the average, my three letters contained 285 words each. The five letters that rebutted contained, on the average, 545 words or about twice the number of words. One of my friends stated that she didn't get past the first three paragraphs in most of the rebuttal letters as the rebuttals

were obviously trying to discredit rather than debate. One rebuttal letter was over 800 words and the last about 1200 words.

As far as my "facts" are concerned, my quotes are widely known and reported; but, are foreign to liberals because they are not reported in the liberal media where my rebutters get their "facts."

And finally, to quote "facts" that come from U.N. sponsored organizations – you have got to be kidding!!! The U.N. is trying to socialize the U.S. and has been doing so for years. Whatever the U.N. says is as much of a lie as Al Gore's stance on Global Warming.

I tried to keep my letters impersonal and "on point." See Letter #3, points (A) through (F). None of these points were mentioned directly in the rebuttals.

Sportsmanlike conduct

Now that the varsity and JV football season has concluded, I wanted to offer a few words of encouragement and thanks to the players, coaches and parents on their difficult season.

A well-known football coach, Sam Rutigliano, once said, "Success is never final. Failure is never fatal. It's courage that counts." Throughout the summer and fall we have seen this courage exemplified during those long, hot practices, and how you bring it every game despite what shows on the scorecard. Game-in and game-out you played with heart and character and though I am tempted to say the lone varsity victory

against a rival such as Bellbrook was well worth the wait. I suspect some of you may feel differently. As the losses and frustrations mounted you continued to give it up every game, a tribute to you and your coaches.

There will be other games to play and victories to be won. Life has a way of throwing those things at you. As parents and fans of athletes, while we find great joy in your triumphs, we also quietly find reassurance in your struggle for we know you will find strength in your perseverance. That strength will serve you well later in your lives.

To the Oakwood students,

rightly or wrongly, the effort and sportsmanship put forth by your teams is a reflection in the eyes of others of the general character of the entire student body. For this season and through this team, you represented yourselves well. For the players and coaches, thank you for your sportsmanship and effort. Do not forget that it is through the undying pursuit of greatness that greatness is often found. Keep giving it up for the games that you play and the life that you live. Be strong...Be great...

'Round Town

'World's Greatest Bridge Club' met on Oakwood Avenue last Monday – it's always the first Monday of every month – for over fifty years! **Shirley Wagner** was one of two 'originals' there. **Jo Kelly** is also an 'original' – but she was in the midst of emptying her house (it's sold!) and getting settled in Lincoln Park.

Dotty Bachus, Sally Riffle, Paula Schaeffer, Weezie McGinnis, Gay Spiegel, and Izzy Schaeffer made-up the two tables. Some other 'originals' were **Al Gillaugh, Gretchen Gorog, and Barb Fanning**. Two brave men – **Wise Glossinger and Jack Heck** have been asked to 'sub' through the years.

Tuesday evening was 'Chicken Night' – but alas, Dayton Country Club wasn't open so **Fred Ohmer** had to settle for 'Fish Night' at Treasure Island. A few from DCC were there – **Tom Parker, and John & Betty Henry. Don and Coreene Moran** and...the place was jammed and it's so dark we couldn't identify and others.

Barb Farley came by in the early morning to deliver a 'Carlisle' suit. She and **Patty Ballard** are getting ready to migrate south for several months. Think of all of our beautiful winter months they'll miss!

Paula Schaeffer had her Bridge Club at The Engineers' Club last Wednesday. Whatta wonderful, historic place! With memora-

bilias of 'Boss Kett', the Wright Brothers, the 'first cash register', the 'trophies' from African Big Game Hunts by members years ago, and the one-of-a-kind Library of 'engineering material. **Mrs. Benham** ran their food service for years before she began her catering business.

Early Wednesday morning, the morning after 'election day,' **Howard Heck** answered his door at the Newcom Building at Monument and Main – and found Dayton's newly elected Mayor – **Gary Leitzell** – standing there with a photographer. "We'd like to go up on your roof to take some pictures of downtown Dayton, the Art Institute, Masonic Temple, the river....I've been told your roof-garden is memorable and...we're awfully early but it's going to be a mighty busy day for me today!" So, Howard said up they all went and it was most interesting to meet-the-Mayor and...

Thursday evening St. Paul's church was a 'rehearsal hall' for Ham-lets. **Ginny Whalen** is the 'Producer' of a one-act play entitled 'Old Ghosts At Home'. And the 'ghosts' are **Bill & Leigh LeBoeuf, Jack & Nanci Koepke** a newly engaged couple. **Tom Maher** is the rotten 19-year-old son of a snotty old woman. **Robert Wilke** is the long suffering family lawyer, **Marge Kuntz** is the maid, and **Jean O'Connell** is a brand-new Ghost.

Weezie McGinnis is produc-

ing the other one act play – but 'Round Town hasn't seen that one yet.

Wayne & Judith Upton have several farms in the Frankfort, Ohio area – over a square mile altogether. Frankfort is off Route 35 about 15 miles north of Chillicothe. It's beautiful country and the Miami Valley Hunt has had permission to hunt there for many years. It's was long haul on Saturday – especially with horses – but the country is well worth the trip.

It was a lovely day – for a 'ride' – but not for a hunt. "It's gotta be rainy, muddy, cool for good 'scenting'. Huntsman, **Diedre Koik** was proud of her hounds... "they really worked...I kept them off the deer that were moving in the large fields...we did have a 30 foot 'run'! The hounds scented a fox who ran thirty feet into his den and the hound that went into the den after the fox got stuck and we had to pull him out! It was all so sudden I don't think the 'field' was even aware of the excitement."

The Chillicothe newspaper sent a reporter and photographer who followed as best they could – in a car. The Uptons had invited their neighbors and friends. The MVH will be there again right after Thanksgiving and **Helen & Ben Sproat** have been invited – they both are Chillicothe born-'n-bred and the Uptons have invited Helen's brother, **Dr. McKell** to join the meet. Helen was a founder of the MVH in 1959.

Notes from the edge...

On being grateful for a whole bunch of good stuff

Niel
Lorenz

November is a time when we remind ourselves to be grateful. Health, love, family, friends, and a really good parking spot are all top of the list of course but there are lots of other things too.

You all know that Dayton is an incubator for incredible inventions. A whole bunch of brainy people sat around and figured out how to do such useful things as fly, start a car, register cash, inkjet print, pop a top, replace a heart, and make tape sticky. You have to love people who think up great stuff for the rest of us to enjoy. Thank you smart folks.

In the middle of a time when there is so much wrong with the country it is refreshing to note that some things are just right. Some of them are not new but boy are they awesome. First of all, many thanks to Al Gore for inventing the Internet. It is inconceivable to imagine life now

without it. I have absolutely no idea how or why it works but am forever grateful to the smart techies who do. Good job. The second not-so-new thing that I think is fabulous is the Dragons' Stadium. Way too often stuff gets built and when we go there the first thing we say is "good grief - what were they thinking?" Not so with our stadium - this downtown venue is terrific. All the seats are good, it is a family-friendly arena with easy bus access and parking, you can relax on the grass if you want, or you can pull up a chair on the sidewalk. There's always something silly going on and the fans come together from all corners of Dayton. How cool is that? Well done.

There are so many great inventions on the market today that are marvels of ingenuity and engineering. Now I'm not talking about the Snuggie...which frankly is kinda weird. You know, it's that blanket thingy with sleeves... but who knows, maybe you have one and love it. How about those spiral light bulbs that last 5 years for goodness sake? I love the playground mulch, carpet and shoes that have been recycled

from old tires. Brilliant. GPS? How do they do that? You can be in East Elsewhere and it will tell you, ever so politely, to turn left on Elm Street. Amazing. Actually, because I am weird, I would have the option of a sassy broad who says things like "you just missed the turn stupid". But then that's me. Still it's an amazing thing.

The last thing on my great invention list is the Pack 'n Play. For those of you without kids around, it is a feat of engineering genius. It is a baby bed, play pen, changing table, and portable crib that when open is solid, comfy, and safe. Need to move it or throw it in the car? Pull up on this little tab ring doohickie and it collapses into a sausage roll with handles. How did they do that? No idea. Don't actually care ...I'm just grateful.

So thank you smart persons. You are awesome beacons of can-do in a world of seemingly endless can't-figure-it-outs, and we are all grateful. I am quite certain that even as we speak there is a guy perfecting what will surely be the most awesome invention of all....a fat free donut.

Collection for eyeglasses

Last December was one of the most memorable experiences in my life. I went on a service trip to Guatemala where we assembled and distributed over 800 food baskets, hosted Christmas parties in various communities, and distributed clothing and toys in the name of "Feliz Navidad"! The people we met were truly amazing and so kind and welcoming! One of the things that stood out to my fellow travelers and myself was that no one wore eyeglasses. We would literally see hundreds of people each day and in our seven days there we only saw a handful of adults with glasses and ONE child!! Check out the photo. For the past ten months I have been thinking a lot about what it would be like to see the world in a BLUR, especially because four out of six people in the Wagner family wear eyeglasses. Just stand outside of school at dismissal and count the number of people you see wearing glasses...A whole lot!!!! Because this has been bothering me I contacted Mayan families in Guatemala, the organization we worked with while there, and asked them if I were to collect eyeglasses and send them, would they have a doctor who could give eye exams and fit people with the glasses. The answer was a resounding YES, they would abso-

lutely love them!

Many students in Guatemala struggle with schoolwork because of poor vision and some drop out entirely due to the frustration. Many adults have trouble doing a job effectively because of poor eyesight, many of the women we met sew, bead, or weave to earn a living and support their families!

So, why am I sending this email? Our family is going to collect eyeglasses and send them to Mayan families so that the Mayan people of Guatemala will have a future and so they will not continue to see the beautiful Guatemalan countryside in a BLUR!

If you are interested in donating it is very simple:

1. Search your home for used eyeglasses, they do not need to be in style or beautiful!!
2. Drop them in the bin on our front porch...103 Spirea Drive or call 299- 0051 and we will pick up. *The Oakwood Register* office at 435 Patterson Rd. has also offered to be a drop-off point for the glasses.
3. Forward this email to anyone you think might be able to donate
4. Enjoy the thought that your old glasses will change someone's life!!!

A Special Thanks to the Oakwood Community

Adam Sobol

From L to R: Will Reese, Chelsea Penchoff, Lucy Shafor, Erin Maher

Oakwood Giving's annual Trick-or-Treating for canned goods was on Sunday, October 25. Adam Sobol, an Oakwood Giving officer, did a fantastic job organizing this year's event. About 60 club members dressed up in Halloween costumes and went door to door collecting nonperishable food items. This annual food drive was a huge success thanks to the generosity of the Oakwood Community! Amazingly, we filled 10 large barrels with the food that was collected. All of the donations will go to Holiday Aid, who will distribute the food throughout the Miami Valley.

235 join 'Pete's Posse' for Buddy Walk

Pete's Posse.

Varsity girls soccer team were part of the Posse too.

Approximately 235 people, mostly Oakwood students and families, joined "Pete's Posse" in the annual Buddy Walk on Saturday, Sept. 26 at Delco Park. Peter Roll has Down syndrome and is in the fifth grade at Harman School. The Miami Valley Down Syndrome Association holds this walk to promote acceptance and inclusion of individuals with Down syndrome and to raise funds to provide scholarships for children all over the Miami Valley to attend summer camps or receive therapies. A portion of the funds raised goes to the National Down Syndrome Society for research and education. Pete's team raised

approximately \$5,000.

The varsity football team, Coach Paul Stone, Dan Rasor and his wife, JV and varsity girl's soccer and volleyball teams, Coaches Gaydosh and Lohmeyer, many of Pete's fifth grade classmates, Mrs. Reymann and Ms. Kahlig were part of the posse. The varsity girl's soccer team arrived at 7 a.m to volunteer to help with all the setup for this event. One football player, Max Breidenbach, arrived early to help also. This is the third year in a row that Peter's team has been the largest.

Gavin Harris, one of Pete's friends and a fifth grade classmate, made a presentation to his

Boy Scout troop about the Buddy Walk. The boys listened while he told them that he became friends with Pete in third grade and that he was not any different from anyone else. He told them that Peter was good at many things, especially swimming. Another friend, Brock Gorman, donated money to the Buddy Walk in the names of the 17 friends who attended his birthday party at the end of the summer. Pete's mother has been asked many times how she gets so many students, especially teenagers, to attend this event. Her answer is, "I live in a great community of great parents raising great kids!"

Business

DigiNotas Inc.® opens for business

Rebecca Hamiel, of Oakwood, announces the opening of her new background check company, DigiNotas Inc.® Offering a wide range of employee risk management and mortgage retrieval services, DigiNotas is the first in the area to offer mobile BCI and FBI fingerprinting, making complying with state mandates associated with child or senior care an effortless requirement. Hamiel is excited about the prospect of hiring more Daytonians to support her rapidly growing business.

What sets DigiNotas aside from the other employee risk management firms is Hamiel's vision of supplying

companies nationwide with a customer service model that is the envy of the industry.

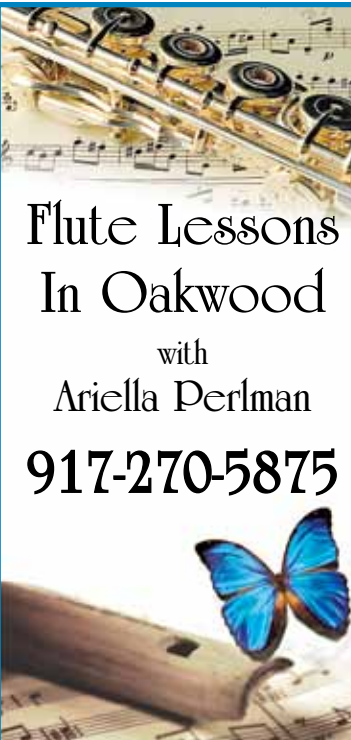

"We knew that turn-around times, accuracy, and overall quality were persistent problems within the industry. While all of these shortcomings naturally catch up with the company, the immediate effect is to the detriment of the customer. In short, we knew what our customers wanted and knew that the market needs weren't being served. Using a lean production model and looking to technology and innovative people to drive this model, we have been able to create more value with less work, and can therefore pass these savings and effi-

ciencies onto our customers. I think that when new customers switch over to DigiNotas, they will notice that quality record retrieval can be easy and inexpensive. It's really not too much to ask for."

Having first-hand knowledge of the issues that plague the industry, Hamiel's corporate vision included a heavy investment in technology as a means to improve the customer service that companies nationwide have longed for. Rebecca Hamiel has gained tremendous exposure to all aspects of the screening business over her 13-year career in the industry, and has earned the respect of her peers for her drive, ingenuity, professionalism.

Arts

Man of La Mancha a must see

Burt
Saidel

Think of me standing in a most elegant boutique pondering which gifts to select for dear friends. You, my dear readers, are those dear friends and the gifts are the rich selection of arts event ready for reporting.

I have to delay my comments on the marvelous Modigliani String Quartet, The Springfield Symphony and a Broadway musical which could restore the limping "Great White Way." I promise these will come soon.

The Human Race – a pool of incredible talent and devotion to the theater, has mounted their own version of *The Man of La Mancha*. The storied Wasserman, Darion, Leigh musical premiered in 1965. It has never been off some stage since that time.

Scott Stoney, as director and choreographer, was determined to do more than fit the show into the confines of the Loft Theatre. He wanted to bring this big musical with its equally big message into an intimate experience. Working with set designer David Centers, the Loft created a dungeon, a castle, a family home and, yes, even the quixotic windmill made a cameo appearance.

The actors, almost in the audience's laps, made the inspiring message of a fool and his great dream – his determination to see the world not as it is but as it could be – vibrates with life. The "Impossible Dream" seemed more possible than I had ever experienced it.

As Quixote, superstar Kevin Moore – an actor who does every role superbly – created the man and his inspired dilemma. As the storied side-kick, Sancho Panza, David Maxwell returned from his national theater activities to recreate his signature role. A natural comedian, his Sancho dispensed

reality in the face of fantasy.

Our local talents, Renee Franck-Reed and comic delight Jake Lockwood joined members of the Race's "farm team," WSU's marvelous theater department. Opera star Jamie Cordes, handsome, imposing but never given enough to sing, led a cadre of his students. Jerome Doerger, Matthew Rush, Aaron Vega, Liz Wheeler and future superstar JJ Tiemeyer gave polished performances.

A voice we want to hear again was that of Kristoffer Lowe as the padre.

It was the critical role of Dulcinea, Quixote's idealized scullery maid, which was given full life by the debut of Melissa D' Amico. Exciting vocally and physically, she made Quixote's dream come to life.

The show continues through Nov. 15. It is a must see!

Dayton Philharmonic Orchestra

The Dayton Philharmonic presented a world premiere this month. Collaborating with fourteen other sponsors, the Concerto for Clarinet and Orchestra by Lowell Liebermann, was commissioned. A dozen of those sponsors were symphony orchestras. Our Philharmonic was chosen, for all the right reasons, to present the world premiere.

For the concerto, clarinetist Jon Manasse, made a most impressive debut. Liebermann's music is exciting and both classic and contemporary. We were able to hear his piano concerto in Springfield. The spirit of the piano concerto was transmitted to the clarinet.

The opening movement was sparkling, happy and jazzy. The orchestra and the clarinet alternated in supporting or leading the themes. The second movement, *larghissimo*, was a plaintive song with interesting sounds from percussion.

The third movement, a Latin dance accompanied by jazzy runs from the piano, has its own special sound from the clarinet. I know that we will be hearing more from composer Liebermann and clarinet-

ist Manasse.

The final work of the concert was the magnificent Symphony in D Minor of César Franck. This work contains the very soul of symphonic music. Maestro Neal and the orchestra shone in a performance of the mellifluous germinating themes.

Their great artistry was accentuated by the sublime acoustics of the Schuster. In every movement, every section, of this great work, each voice was heard resonating with transcendent sounds. I am certain that I will never hear it played better!

To my readers who know what a great orchestra we have, I join their bravos. To those who have not experienced the Philharmonic, ask yourselves why Dayton was chosen for this world premiere over a dozen other orchestras. Ask those of your friends, who attend the Philharmonic; the answer will be universal – great artists, great Maestro, great hall. Try it, you'll like it!

WSU's *The Pajama Game*

Wright State Theatre, The Human Race's "farm team," mounted a spirited production of *The Pajama Game* at the Festival Playhouse. This 1950s musical has always been sort of an "also ran" in competition with some of the great American musicals of that era.

It has a cute plot, fun music and plenty of opportunity for dance and comedy. When presented by the burgeoning talents of the WSU students, it moves from "also ran" to a real winner.

Directed by Michael Licata with incredible dancing set by choreographer Teressa Wylie McWilliams, the theater vibrated with pure joy.

The student cast was led by Bryant Tuschi, and Kelsey Cathleen Hopkins. This handsome pair was supported by additional beautiful young talents. Comedy and dance was handled by Sarah Agar, Will Hutcheson, Darien Crago, Timothy Singleton and Kelsey Celek

The show closes Nov. 15. You can come in your pajamas but you won't fall asleep!
